Public Comment Disclaimer: I have read and understand the Public Comment Disclaimer.

Comments: In addition to believing that traffic signals, rather than mere stop signs, are important to keep the flow of traffic orderly and giving motorists a fair opportunity to enter Worcester Street from Deernolm Street, Brigham Hill Road and Hillside Drive, I see much frontage land on the Wyman-Gordon side of Worcester Street and continuing toward Millbury before the Mass Pike entrance that should be considered for adding a lane of travel on that side of the street to at least alleviate traffic congestion there from the vehicles that will enter and exit the new warehouse.
